BOOK CLUB

OPEN TO RISING 3RD – 8TH GRADERS

Have fun building up bonds with the girls! Tags: AndroidGuideiOSMobilePostknightPostknight Gifts Trying to make nice with one of the handful of befriendable girls in Postknight? Likes Pancakes, Coffee, Lavender and Bright Devotion (Event). The wiki has a table of item drop rates for each route that is useful for determining which route you should repeat to get the item you are missing.If using the table is a little worrying at first, rest assured the steps are simple. Quadrattack and Counter Cover skills may be swapped in at your discretion to amplify your damage output. Remember to keep your potion's cooldown reduced to the minimum of 3 seconds to get the most healing per minute from it. In addition, you will lose a heart if you skip talking to a girl for a day.This guide is pretty simple but should get the job done for now. Starting at Griffondell, you will have access to powerful armor pieces that heal you when you land a critical hit or dodge an attack. Asteria: Found in Valley of Gold. Agility is by far the best stat and you should have more points in agility than in strength.Intelligence is great for fast early leveling but the magical defense is useless since most enemies do physical damage.Vitality increases your health in a linear fashion, but you can more easily gain health by leveling up or equipping head armor pieces. The other most commonly quoted stat distribution is 90 Str, 108 Agi, 1 Int, 1 Vit. She loves animal produce and delicious rare seafood dishes. The build with the highest healing uses Mistral Dagger and Flit Helm from Griffondell (area 3), Divine Aegis from Valley of Gold (area 5), and Primal Garb from Fractured Forest (area 6). For the dog in Pompon Village it is a food called Juicy Meat.What food to feed each pet - PostKnight division should I join?Join Pyrodash, the red one. She loves high quality teas and healthy meals, and her favorite color is pink.Loves: Butterfly bracelet, hoop earrings, peach tea, pink carnation, salad, quivtol tea.Likes: Beer, coffee, feather pendant, green orchid, grilled salmon, honey, hoop earrings, milk, pancakes, polka dot ribbon, red rose, roast beefDislikes: Curry rice, leaf handkerchief, yellow daffodil, apple juiceHer event items are Blushing Allure, Witch Ensemble, and Snow Cookies.Senna Senna can't get enough of being outside or taking care of animals and she can be found out in Griffondell through the entirety of the story. The column that number falls under is the route you are looking for.Table of item drop rates - rings should I purchase?If you decide to make only a single purchase, then you should buy the Experience Ring with the discount deal that is presented to you at the beginning of the game. You unlock an armor piece's hidden ability by upgrading it 5 times to its maximum level. The dodge chance is necessary for surviving tough levels. Levels unlock new abilities (charge and shield skills), make your character stronger all around (by raising your invisible base strength and base vitality), and enable your armor equips to be effective (through agility point allocation).As with the ranking of the other rings, gold is generally scarcer than loot items, and advertisements can be skipped for free anyways.Ring descriptions - free to comment if you have anything to add~If you enjoyed the game please remember to give the game a good rating and bid the hype for PostKnight 2, which will release sometime in 2020! Dahlia: Found in Shello Bay or Caldemount after ranking up to PostKnight Rank B. One is based on how your division competes against other divisions (which you should win if you choose Pyrodash), and one is based on how you compete against other players in the global rankings. A critical hit does 150% the damage of a regular hit.Agility increases both your critical hit chance and dodge chance. She loves strolling through the village's fields and home-cooked food (in particular soup), and her favorite color is white.Loves: Mushroom soup, honey, white lily, polka dot ribbon, caspid honeyLikes: Apple juice, beer, butterfly bracelet, hair comb, lavender, leaf handkerchief, milk, pancakes, peach tea, pink carnation, red rose, roast beef, salad, yellow daffodilDislikes: Coffee, green orchid, grilled salmon, hoop earringsHer event items are Sweet Delight, Pumpkin Ensemble, and Wintertide Sweater.DahliaDahlia is a thrill-seeker with a taste for beer, and leaves Shello Bay once you reach Caldemount and become a Rank B Postknight. Therefore, here is a list about the gifts items they like for you. According to the official Postknight Facebook Fleur loves apples and spicy food, and her favorite color is green.Loves: Apple juice, curry rice, leaf handkerchief, green orchid, herb almanaLikes: Coffee, green orchid, grilled salmon, hair comb, honey, lavender, leaf handkerchief, milk, mushroom soup, pancakes, peach tea, pink carnation, polka dot ribbon, salad, yellow daffodilDislikes: Beer, feather pendant, red rose, roast beeHer event items are Spring Bloom, Witch Ensemble, and Winter Herb.MagnoliaMagnolia is the first NPC you can start befriendng and she stays in Pompon Village throughout the story. Sorry!FleurFleur is an apprentice alchemist and can be found in Pompon Village at all points in the story. Follow @GamerBraves Magnolia: Found in Pompon Village after finishing Timber Path V. This build uses Nighbane Saber and Phantom Crown to sustain through life steal. Senna: Found in Griffondell. You want to make sure you give them things they like to avoid having to make up for hearts lost when giving a bad gift. You unlock a few NPCs in Pompon Village, but it takes some progress to unlock the others. On the flip side, Dahlia really likes yellow daffodils but Camellia hates them.When you give an NPC a gift they like you will gain hearts but if you give them something they dislike you will lose hearts instead. The red division always wins by 2 to 3 times the points of the other divisions (green and purple).In order to participate in the weekly division contests hosted at PostKnight Headquarters (area 0), you have to have completed the first route of Caddlemount (area 4) and be a Rank B PostKnight.If you participate in the contest, you will receive 2 rewards at the end of each week. This build is more time-consuming and resource intensive to assemble but it may clear slightly faster than the standard build.List of all charge and shield skills - potion should I buy?If you manage stat points and armor equipment properly, then you can keep your red potion until you can buy the crystal potion in Valley of Gold (area 5). Pets are not worth their investment if using gems, but the dog that is acquirable in Pompon Village for coins is a reasonable buy.Pets are picky eaters and only eat one specific food sold only at their local shop. They all have the same probabilities of giving you a specific item and wooing one over another is not going to increase your chance of getting an item you want.Each love interest has items she likes and dislikes. A gift can be given every 4 hours while a natural decay of bonds occur if you do not visit or give a gift to an NPC for a certain period. Fortune Ring permanently doubles gold income. All portraits are additionally viewable on the wiki.Love interest items to give and portraits - of legendary gifts - 20GiftsWhich pets should I raise?Pets require more items and time to raise to maximum affection but give similar item rewards to love interests. Camellia: Found in Caldemount. The 90/108 distribution does more damage than the 74/120 distribution, but offers less survivability. It is a hint for you in game! You can obtain gifts from chests, buying from the Merchants or drops from enemies. When you reach your max level of 99, you should end up with 74 Str, 120 Agi, 1 Int, 1 Vit.Some like funneling their stat points into intelligence to accelerate experience gains and level faster. Check out our guides on ranking, skills and combat and how to get free gems too! Every NPC likes different types of gifts, gifting them an item they do not like will drop the level of bond significantly. The guide is a bit lengthy, but the main points are quickly summarized as the first paragraph of each section.Sections:Stat pointsArmorAbilitiesPotionsRelationshipsPetsDivisionsItemsRingsHow should I allocate my stat points?Before Griffondell (area 3) you can allocate however you fancy. Some items will actually decrease a love interest's affection level. I've listed out the items I've given each girl as well as whether she loved, liked, or hated it. However at Griffondell and beyond, enemies are tough and you should reset your points at the local inn and funnel them into only strength and agility. Alacrity Ring lets you skip advertisements.The Experience Ring is most useful because levels are so important. Likes Salad, Coffee, Peach Tea, Pink Carnation and Blushing Allure (Event). I did not log the amount of heart progress given with each gift, though. You can develop relationships or bonds with the NPCs found in different areas in Postknight by giving out gifts to them. And in exchange, you will receive gift boxes from them. For instance, if your global rank is between 501 and 1000, then you will receive 10 Gems, 10 Blue Tokens, and 2 Crystal Tokens. Fleur: Found in Pompon Village after finishing Creek Trail V. Likes Honey, Mushroom Soup, White Lily, Polka Dot Ribbon and Sweet Delight (Event). Noticed the little smiley face besides the item? Likes Milk, Grilled Salmon, Feather Pendant, Yellow Daffodil and Summer Charm (Event). It is necessary to make your critical hits hit harder. You can raise your ranking by earning points for yourself, either by completing special missions only found at PostKnight Headquarters or by donating loot items to the PostKnight cause.At week's end, both your rewards will be calculated based on which bracket your global rank falls into. Lucky Ring permanently doubles loot item discovery. However, you buy it mostly for the healing as it outheals all the other potions.Potion healing values - love interests should I pursue?If you can spare the time too woo them all, then all of them. Keep in mind the cost (in gems) of resetting stat allocation continually increases every time you reset (e.g. 50, 100, 150, ...).Strength and agility are regarded as the MVP stats of PostKnight 1 as intelligence and vitality scale poorly as you progress.Strength increases your damage linearly. She loves sugary foods as well as caffeine, and her favorite color is blue.Loves: Coffee, hair comb, lavender, pancakes, titanium oreLikes: Apple juice, beer, curry rice, grilled salmon, hoop earrings, milk, peach tea, roast beefDislikes: Butterfly bracelet, honey, mushroom soup, white lilyHer event items are Bright Devotion, Pumpkin Ensemble, and Clockwork Toy.Images taken from the official Postknight Facebook. The whole gifting system is easy to overlook if you're just into the game to give monsters a good whomping but if you're really getting into it then it's time to start giving the NPCs gifts.Giving an NPC a gift is as easy as tapping on them directly then tapping the 'Gift' button, but that's the only easy part about figuring out the gift system. With all pieces, the set will heal you 4% of your maximum health when you land a critical hit and 20% of your maximum health when you dodge an attack (10% from Flit Helm and Primal Garb each).Short descriptions of strongest gear:WeaponMistral Dagger (Griffondell) - heals when you land a critical hitNightbane Saber (Valley of Gold) - heals a percentage of your damageFeral Dagger (Valley of Gold) - chance to stun enemies on a critical hitShieldDivine Aegis (Valley of Gold) - reflects a portion of damage taken back onto enemiesBodyPrimal Garb (Fractured Forest) - heals when you dodge an attackHeadFlit Helm (Griffondell) - heals when you dodge an attackPhantom Crown (Fractured Forest) - heals a percentage of your damage*Note that Mistral Dagger strikes twice with every attack, so the 2% of health quoted in game is actually 4%.*Divine Aegis reflects pre-mitigation damage. Unsurprisingly she loves beer and beef, and her favorite color is red.Loves: Beer, hoop earrings, milk, red rose, ameranne wine, roast beefLikes: Coffee, curry rice, feather pendant, grilled salmon, honey, leaf handkerchief, mushroom soup, pancakes, peach tea, rose handkerchiefDislikes: Lavender, milk, polka dot ribbon, saladHer event items are Classic Desire, Pumpkin Ensemble, and Festive Ale.CamelliaCamellia is certainly the most regal of the girls in Postknight and can be found in Caldemount, where she will remain throughout the story. Find the highest number in that row. There is some hint for you in the game but some of you may not notice it. It may be best to look up which items are preferred by each girl rather than using a trial and error approach. If you do not talk to a love interest once per day, her affection level will drop by a quarter of a heart every day.Once a love interest has maximum affection for you, giving her a special gift (i.e. legendary gift) will unlock a romantic portrait of you and your love interest. Likes Hoop Earrings, Roast Beef, Beer, Red Rose and Classic Desire (Event). That is, it reflects a portion of damage taken, before that number is reduced by your defense stat.Hidden abilities of every armor piece and where to get - abilities should I use?Blitz Charge is best for quickly reaching enemies with ranged projectiles. If you want to make more in app purchases, then the rings are ranked Fortune Ring, Lucky Ring, and Alacrity Ring in order of usefulness. Apart from rings, everything can be obtained for free with a little bit of tedious grind.Experience Ring permanently doubles your experience gains for the rest of game. Quadrattack and counter cover are usually only used in special end game builds that rely on life steal to sustain.Blitz Charge (level 30) - doubles the distance you charge, useful for maximally utilizing the short window of protection from your shield ability, additionally useful for reaching ranged enemies before they deal too much damage to youElusive Cover (level 65) - increases dodge chance, synergizes with Flit Helm and Primal Garb, you can recover over 100% of your maximum health with one combination of Elusive Cover and Blitz Charge through a horde of enemiesCounter Cover (level 85) - increases damage of critical hits, viable in the end game only if paired with armor that heals through damage output (e.g. Nightbane Saber and Phantom Crown)Quadrattack (level 90) - deals 4 times damage while charging, quickly dispatches melee enemies but may have problems quickly closing the gap between you and a group of ranged enemies with high knockback attacks (i.e. Fractured Forest routes and S rank missions)*Once you reach Valley of Gold, you can begin to acquire the integral components for a different, more damage heavy build. Firstly, look up the item you want on the left, then scan right across the row. Additionally, for this same global rank bracket, the reward for being a member of the strongest division is 1 Crystal Token.General information on the division system - of rewards for each rank bracket, taken from the wiki - do I get the items I need for crafting?Loot items have different drop rates for each route, meaning some routes are more efficient than others for gathering specific items. Specifically: Fleur - Complete Creek Trail V Magnolia - Complete Timber Path V Dahlia - Obtain Postknight Rank B and reach Caldemount Camellia - Reach Caldemount Senna - Reach Griffondell Asteria - Reach Valley of Gold But that's not all there is to know about these lovely helpful ladies! Each one has her own specific likes and dislikes that you have to abide to in order to get her to reach 5 hearts. This discount is only offered once, and brings the price of the Experience Ring down from around 8 USD to around 2-3 USD. Hi there, this is a guide for new players that is drawn from my experience and from reddit consensus. It should be noted that 120 agility is the exact value that gives you 100% critical hit chance, and 200 agility is the value that gives 100% dodge chance.Which armor should I wear?Armor pieces with healing abilities are usually necessary to beat end game levels or S rank missions. If you can't yet unlock the hidden abilities of these items, it's probably best to use a set with all 4 armor pieces for the set bonus.When all hidden abilities are unlocked, this set works by healing you whenever you land a critical hit or dodge an attack. The green and blue potions are considered mediocre and the crystal potion is considered a nice luxury purchase. The green potion (Griffondell) increases your speed for a short time but the mobility boost is redundant to and outclassed by charge abilities.The blue potion (Caddlemount) increases your magical defense for a short time but is as pointless as intelligence stat points are, since most enemies do physical damage instead of magical damage.The crystal potion (Valley of Gold) increases your strength for a short time and synergizes with your high agility to make your critical hits stronger. Noted that some items can only be bought from merchant in certain area. The pet in Pompon Village requires coins to acquire, but all other pets require gems. Her favorite color is yellow.Loves: Feather pendant, grilled salmon, mysterious eggs milk, yellow daffodilLikes: Apple juice, beer, butterfly bracelet, coffee, curry rice, green orchid, honey, hoop earrings, lavender, leaf handkerchief, mushroom soup, polka dot ribbon, red rose, roast beef, saladDislikes: Hair comb, pancakes, peach tea, pink carnationHer event items are Summer Charm, Witch Ensemble, and Wintertide Scarf.AsteriaThe last girl you can start building a relationship with, Asteria is obsessed with gadgeteering. Compared to the standard build, this build survives by healing through raw damage output rather than healing from critical strikes and dodges. More information of the game in our previous post. For example, Camellia loves salads while Dahlia hates them. Elusive Cover synergizes with healing armor items by increasing your dodge chance. Likes Apple Juice, Curry Rice, Green Orchid, Leaf Handkerchief, Honey and Spring Bloom (Event).
